Our friendly staff can advise you on the best equipment to suit your drilling and blasting activities

About Bosmac

Bosmac is a family-owned business based in Parkes, a convenient distance to local mines.

Since 1981, Bosmac has been designing, engineering and manufacturing quality products for Australian conditions.

Bosmac is proud of its reputation for providing quality, reliable products at competitive prices along with personalised service.

Optional Extras

Bosmac manufactures fixed or portable ANFO mixing plants custom built for your purposes.

We offer a complete range of plant components including ammonium nitrate augers, bulka bag splitters, hoppers, ANFO mixers, support frames and platforms.

Standard Ammonium Nitrate Augers

Barrel Length	Barrel Diameter	Recommended Motor Size	Capacity
9m (approx 30ft)	200mm (8 inch)	18 HP	30 tonnes per hour
9m (approx 30ft)	200mm (8 inch)	25 HP	30 tonnes per hour

Note: Capacity will vary according to the speed and angle of the auger, the clearance between the flight and tube, and the available power.

Above are our standard ammonium nitrate augers. We can also custom manufacture to your requirements. Augers are supplied individually or as part of an ANFO mixing plant.
